Sir, It is understood that Mr. Keswick's lrastic bill to stop time Bargains in shares about to be Brought forward in Council for the second reading.. Considering the injurious effect such a bill if passed would have upon the business of brokers, it seems surprising that thi large body has so far taken no notice of Mr. Keswick's attempt at law-making. It is to be presumed that they do not believe it possible such a bill can be passed in any English colony Mr. Keswick has framed this bill because it is in his opinion immoral to sell for future delivery what you have not in your notual possession of nower at the time the contract is made. Now f it be immoral to sell shares short, surely it is been robbed of the savings of years. HONGKONG, CANTON, AND MACAO STEAMBOAT COMPANY, LIMITED. TO THE EDITOR OF THE "DAILY PRESE!" SIR,—The latest half-yearly report of the above-company is held by some as far from satisfactory, and even in the report itself it is stated that the results of the half-year's working are poor, owing to active competition on the Hongkong Canton line, coupled with general dulness of trade all round. Considering that the company, owing to the above-mentioned causes, has passed through a trying period, a p riod which | CHALLENGE CUP, value 50 guineas; a forced may be called one without attar of roses for the company, the results achieved are simply brilliant, made a remarkably smart run from Hongkong. brutul attack is still at large. The Police have "conduct of any member, either within or out and promise well for the shareholders, if the in-" side of the Club premises, and either in matters judicious and suicidal opposition, or what may connected with racing or otherwise, has been be aptly termed the Hobbesian war of each "injurious to the character, interests, welfare, against all by the three leading shipping companies of China be no longer continued.

Yet with the above optimistic view of the position of the company, there are certain queries that I would ask through the medium of your widely circulated journal, and suggestions that I would like to see acted upon, which I beg leave to say have not germinated from any morbid feelings of opposition against or want of contidence in the directorate.

(1) Why do not the directors allow a sufficient

sum for depreciation upon the fleet, as is customary with all public shipping companies? (2) Do not the company's six steamers and 5/8ths of Fatshan undergo any wear and tear year after year, subjected as they are to such rough work?
The value of the above fleet is estimated at \$115.000.00. Would the vessels realise the same sum after the wear and tear of a few years. maintained as they are in an officient state by constant overhauling and repairs? Unquestionably some provision should be made for depreciation inithe value of the fleet, as is pre-eminently done by the Indo-China Steam Navigation Company and the Douglas Steamship Company, whose intrinsic values consequent thereupon are much higher than their present market values. (3). Do not the directors deam it expedient to build up an underwriting account, as is done by have not been few and far between? (4) favourite the third time round just after passing [Here follows the Rule as above set out and The profit and less account is bare and The CHAIRMAN said-Gentlemen, this meet the gross earnings and working expenses, the say, "I thought I had another time to go round." Company and the Douglas Steamship Company, (5) Has the cost of coals any effect, beneficial or otherwise, on the carnings of the steamers? (6) Have the directors taken any measures to mip in the bud the long threatened opposition, which, it is currently reported, will emanate from Chinese sources F.

A propos of this, in conclusion, I beg leave to express a hope that the suicidal and interrecine competition by the three large and leading shipping companies of China, at the expense of the market value of the stock, competition which has contributed in no small measure to prejudicially influence the earnings of the Hongkong, Cauton, and Macao Steamboat Company, will be now, through some mutual understanding, unhesitatingly, and without further demur, withdrawn. The uselessness of such a competition as at present carried on, regardless of the serious and unmitigated loss to the shareholders, is evident. Let the directors and accents of the three companies bear-in mind not to heat a furnace for one's foes so hot, as they have done, that it doth singe themselves. Yours truly, A SHAREHOLDER.
